

SRĐAN ĐURIĆ

PROFILE

As a child, I developed a passion for strategy games that demanded careful planning and critical thinking. This love for strategic challenges propelled me toward a software engineering. I see programming as one big playground, with enough creativity the possibilities are endless.

LANGUAGES

Serbian: Native speaker

English: Very good knowledge of spoken and written language

Spanish: A1 Busuu certified

CERTIFICATES

- Become a Product Manager(link)

ACTIVITIES & INTERESTS

Traveling
Going out with friends
Documentaries and news
Stock market
Working out

EXPERIENCE

NovaLite, Software Engineering Intern

Novi Sad, Sep. 2022 – Oct. 2022

- Created a simple e-commerce application by using **Scala, Play Framework, and PostgreSQL**
- Engaged in daily meetings with a mentor, showcasing progress and outlining future plans for each day

Student projects

2019-present

SerbUber Web Application(Demo video)

- Technology stack: **Java Spring Boot, Angular, HTML, CSS, and PostgreSQL**; worked in a team of 3 people
- Designed user interface and implemented backend logic for user profile CRUD operations, payment via PayPal, driver shift changes, user registration and verification via e-mail, reports, and more
- Added real-time live chat and notifications by implementing **WebSocket** communication
- Implemented exception handler on backend and guards on frontend
- Wrote **unit, integration, and selenium tests**

Banking Expert Knowledge-Based System

- Technology stack: Java Spring Boot, Angular, HTML, CSS, Drools, and PostgreSQL; worked in a team of 2
- Implemented Drools rules and logic for credit card requests, templates for monthly interest calculation, client registration, and more

Machine Learning Set Of Tasks

- Participated in solving 6 different problems by using ML algorithms(Linear Regression, SVM, Ensemble etc.) in **Python**
- Tried different preprocessing techniques(Outliers detection, normalization, feature engineering etc.) and analyzed results

EDUCATION

FACULTY OF TECHNICAL SCIENCES, UNIVERSITY IN NOVI SAD

Software engineering and information technology (2019-present)

ŠABAC GYMNASIUM

Social and linguistic direction (2015-2019)

KEY SKILLS

- | | | |
|---------------------------------|-----------|--------------|
| • Good listener | • Java | • Spring |
| • Friendly and ambitious person | • Git | • SCRUM |
| • Effective communicator | • Angular | • TypeScript |
| • Critical thinking | • Scala | • Docker |
